Molecular Analysis (\$/run, plate read or sample)							
Plate Reader	\$/month	\$13.50	-	\$17.69	-	\$26.53	-
Additional Fees / Miscellaneous (\$/h, day, sample)							
Lab Use Fee	\$/h	\$4.95	-	\$6.48	-	\$9.73	-
Training & Consulting ⁴	\$/h	\$46.55	-	\$60.98	-	\$91.47	-
Method Development	\$/h	inquire		inquire		inquire	

¹Prices are subject to change

²Additional charges may be applied to difficult samples and to samples in matrices not commonly used at EcoCore.

We reserve the right to charge additional fees upon further information. Please contact lab management.

Additional time and materials may be charged under the following example scenarios:

- | | |
|---------|--|
| CHN | Low concentration samples; salts; liquid samples |
| TOC | Any sample matrix other than water |
| ALPKEM | Any sample matrix other than 2M KCl or water; any sample not near neutral pH; colored samples; dirty samples |
| COSTECH | Salts; glass or quartz filters; highly enriched samples (> 2 atom%) |

³ Solid samples should be sent to EcoCore weighed and encapsulated. We occasionally weigh and encapsulate samples for outside clients for an additional charge.

⁴ Training and consulting fees are charged by the hour (@ \$46.55/h) for instrument, method, and lab use training sessions. Training on instruments needs to be re-taken if operator has not run the instrument for over 6 months.

Other notes:

Client vs. EcoCore operator: for most automated analyses, a sample surcharge is included when samples are sent to and analyzed by EcoCore, to cover for time investment by laboratory technicians.

If instruments are run by the client, training is required, which will be charged by the hour (@ \$46.55/h) for instrument, method, and lab use training sessions.
